

PERIMETER LIGHTING

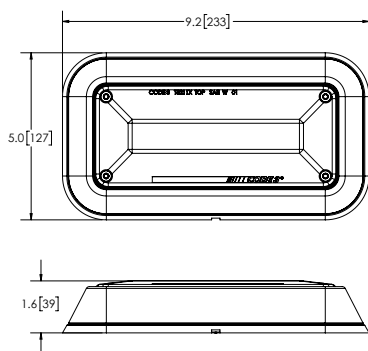

PRIZM™ II PERIMETER LIGHTS

Directional Warning For Any Fire Or EMS Apparatus

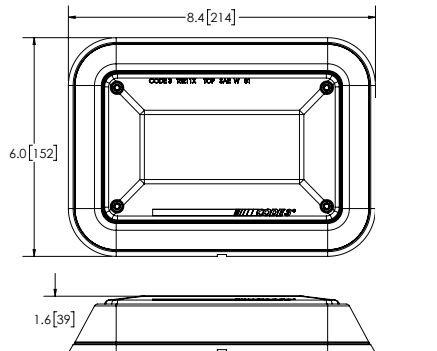

Code 3's Perimeter Lighting offers advanced dual reflector LED technology that provides a brighter signal for superior visibility and safety. The optional multi-color vertically split lightheads provide maximum versatility. The 3" x 7" and 4" x 6" lightheads feature a single row of high output PriZm™ II LEDs. The 9" x 7" lights feature three rows of PriZm™ II lightheads. Features include synchronization between multiple lightheads, easy to install or retrofit, dimming, steady burn, and water resistant seals.

Features and Benefits

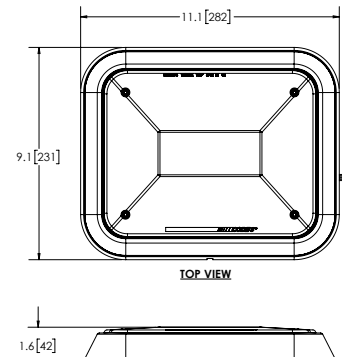

- 12 VDC
- Surface mount
- Low Amp Draw
- Dimming
- Synchronization between multiple lighthead assemblies provides a full range of flash capabilities ever required
- Water resistant seals
