

OTTO Tactical Series headsets keep you comfortable when the action heats up.

Operating and communicating in a high noise environment demands your complete attention. You need to hear and to be heard. OTTO tactical headsets are compatible with a variety of radio makes and models. They are available with a variety of boom mount positions and with electret or dynamic microphones. We created these tactical headsets for assignments from covert to combat—and all of these headsets are qualified to MIL-STD-810.

OTTO T1 Headset

Waterproof and tough, this OTTO headset secures to the exterior of a helmet. The disconnect cable provides quick release, leaving the headset attached to the helmet.

- Boom microphone with coiled cord easily attaches to chin strap or gas mask using the Velcro® strap
- Adjustable earpiece for comfort and excellent audio clarity
- Barrel PTT with protective cover prevents accidental keying and keeps out dust and dirt
- MIL-STD-810G

OTTO T2 Headset

With enhanced acoustical features, this OTTO headset's washable Velcro® over-the-head strap and elastic band fit snugly around the head with a soft rubber ear cup to provide long-term comfort.

- Fits under a helmet or over a cap
- Larger size ear cup delivers superb audio
- Flexible boom microphone for effortless repositioning
- MIL-STD-810G
